Reason		
Risk of moving furniture prior to issuing of Certificate of Occupancy		
<p>This statement is to make sure all parties understand some risk of moving furniture or other items into a garage prior to the issuance of a Certificate of Occupancy. Due to the circumstances surrounding the move out of existing home or unforeseen circumstances and the Certificate of Occupancy not yet awarded by the Town of Bluffton, it is highly possible that the furniture or other items moved into the garage at this time would result in no protection against any loss from fire, theft or accidental damage from the time of the move in through the issuance of a Certificate of Occupancy. Also any damage to furniture by any town inspector at this point would not be the responsibility of the Town. Though the Town strongly discourages moving furniture in at this time, we want all parties to understand the possible implications.</p>		
Certification		
<p>The Owner and Contractor hereby certify that the above referenced information will be in accordance with the specification established by the Town of Bluffton. The Owner and Contractor will also keep floor spaces clear a minimum of 3 feet from walls and agree not to occupy the structure until the issuance of a Certificate of Occupancy.</p>
